DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with J. Matthew Zigman, Reg. No. 44005 on 2/14/2005.

2. **THE CLAIMS:**

Delete claims 18, 19, 20 and 21.

Allowable Subject Matter

3. Claims 1-17, 22-32, are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art shows pixels value being filtered but does not disclose determining which of the plurality of sub-samples are covered by the source pixel and which of the plurality of sub-samples are not covered by the source pixel; filtering the sub-samples which are covered by the source pixel; blending the filtered sub-sample with source pixel to create a blended sub-sample; and filtering the sub-samples which are not covered by the source pixel together with the blended sub-sample.

Art Unit: 2676

The closest prior art does not disclose memory for storing sets of sub-samples; a second number of filters each filter coupled to the memory; and a third number of blenders, each coupled to one of the second number of filters, wherein the third number is less than the first number. The apparatus of generating pixels in graphic system have sub-sample and source pixel.
